UNDERGRADUATE  
RESEARCH ONLINE

Publishing outstanding research in applied and computational mathematics by undergraduates

**Editor-in-Chief**

Luis Melara, *Shippensburg University*  
LAMelara@ship.edu

**Associate Editors**

Julie Blackwood, *Williams College*  
Erika Camacho, *Arizona State University*  
John Carter, *Seattle University*  
Anne Catlla, *Wofford College*  
Tim Chartier, *Davidson College*  
Jennifer Daniel, *Lamar University*  
Maria Emelianenko, *George Mason University*  
Sommer Gentry, *U.S. Naval Academy*  
Jana Gevertz, *The College of New Jersey*  
Michele Joyner, *East Tennessee State University*  
Kathleen Kavanagh, *Clarkson University*  
Karin Leiderman, *Colorado School of Mines*  
Nathan Tintle, *Dordt College*  
Joanna Wares, *University of Richmond*  
Abdul-Aziz Yakubu, *Howard University*  
Lizette Zietsman, *Virginia Tech*

SIAM Undergraduate Research Online is an open-access publication devoted to undergraduate research in applied and computational mathematics. Topics include subjects such as analysis, discrete mathematics, statistics, operations research, optimization, dynamical systems, modeling, and computation. Applications come from areas such as the physical, life, financial, and management sciences and engineering.

Authors may take advantage of the web-based nature of the publication by submitting supplemental files that include animations, software demonstrations, and innovative graphics. Supplemental files will be evaluated with the manuscript as part of the peer-review process.

**Submit your paper.**

SIURO papers are written by undergraduates as part of their undergraduate education. Student authors prepare and submit the paper, correspond with an Associate Editor, have the paper read by outside referees, and respond to the referees. SIURO provides articles on applied and computational topics that are accessible to undergraduate students. For faculty advisors and mentors, the publication provides models of outstanding undergraduate research.

Papers are posted online as they are accepted. The turnaround in refereeing papers is very short. Subscription and access are free and open to the public. For complete information on submitting a paper, and to view already published papers, go to
